SUMMARY

I'm a **Full Stack Developer** dedicated to creating seamless user experiences and robust back-end systems. I focus on writing clean, maintainable code and building secure, scalable solutions for the modern web.

PROFESSIONAL EXPERIENCE

Frontend Engineer, Vizzuality, LLC. Madrid, Spain

At Vizzuality, I led the development of high-performance web applications with TypeScript, Next.js, and React.js. I implemented robust state management using Redux.js, integrated compelling data visualizations with Recharts.js, and ensured secure authentication through NextAuth.js. , I also introduced advanced data fetching techniques using React Query to enhance the overall performance and responsiveness of our web applications at Vizzuality.

IT Support Specialist, Webhelp Barcelona, Spain

I provide high-level technical support for the Google API ecosystem, where I specialize in troubleshooting complex integration issues, debugging OAuth 2.0 authentication flows, and analyzing RESTful API requests. By reviewing developer code and utilizing the Google Cloud Platform, I bridge the gap between technical infrastructure and client implementation to ensure seamless application performance.

IT tech trainner, MigraCode Barcelona, Spain

I played a multifaceted role in curriculum development, teaching, mentoring, and community building, with a commitment to empowering aspiring tech professionals, Collaborated closely with senior engineers to design and implement cutting-edge projects, contributing to the continuous enhancement of the Bootcamp syllabus. Led the development of engaging programming content, with a focus on HTML, CSS, JavaScript, React, and NodeJS.

SKILLS

Html • Css • JavaScript/TypeScript • React/Nextjs • Redux/ReduxSaga/ContextApi • StyledComponents/Scss/Tailwind • Testing • CD/CI • Monitoring • Git/Terminal • Agile • Firebase • RestfulAPI • PostgreSQL • Nestjs • OOP/MVC
